

EHE Career Opportunities – Pleasanton, CA

EHE International is America's leader in preventive health and wellness programs specifically designed for the early detection of disease and its associated risks, and the management of lifestyle behaviors driving disease. Since 1913, EHE has been the preferred choice by employers and individuals for its evidence based, comprehensive approach to the protection of health. If you're looking for a challenging and rewarding career with the leader in preventive healthcare, then we encourage you to submit your resume.

EHE International is seeking qualified individuals for a number of Clinical and Administrative positions. You are invited to submit your resume with stated salary requirements to Anita Mislá, HR Manager, at hr@eheintl.com or via fax at 212.332.1170. Qualified candidates will be contacted for an interview. *Resumes without stated salary requirements will not be considered ("open" is not acceptable).*

Team Lead - Systems Administrator (Full-Time)

Qualifications: We are seeking an individual who will lead a small team consisting of a systems administrator and support staff members with a **hands on** style of management. This individual will manage seven remote facilities and be metrics/process-oriented and innovative by investigating new technologies/solutions.

Ideal candidates practice a preventive health lifestyle and are highly professional. The successful candidate must have a B.S in Computer Science or equivalent. Be fluent in Windows 2003/2008 and Linux OS. Must have experience with layer 2 networks, enterprise network management including firewalls and routers. Candidate should have a full understanding of DNS, DHCP, LDAP, TCP/IP and experience with MCSE, CCNA is a plus. Knowledge of Active Directory, Microsoft Exchange 2003/2007, clustering, system patch management using Shavlik, installing off-the-shelf web applications, and intrusion detection systems such as SNORT is required. Additionally candidates should demonstrate strong project management skills with little direction, ability to prioritize/juggle multiple tasks, have a passion for technology, strong communication/interpersonal skills, experience supporting systems in a 24X7 production environment, proven track records in developing policies and work well within a team environment with superior customer service attitude.

Primary Responsibilities: Include, but are not limited to, managing a small team while establishing awareness and implementation of privacy and security.
